

Certification of Conformance Multiflex Scraper

Product code: P8012 (Blue, Green, Red, White and Yellow

Product description: Stainless steel scraper with plastic handle

Laboratory analysis carried out by:

Versuchs- und Prüfanstalt VPS Remscheid

To comply with the EU dec 1935-2004/LFBG

The scrapers supplied (blade and handgrip) comply with current food, commodities and animal feedstuff regulations following inspection by the Research and Testing Institute of Remscheid. The testing is based on the EU-decree 1935-2004.

Observations on the plastic handle / heat resistance: The plastic handles are made from high density polyethylene and resist temperatures from -85°C to +90°C. The material burns cleanly (waste products CO₂ + H₂O).

If the material is heated but not set alight, it liquefies and no longer holds its shape.

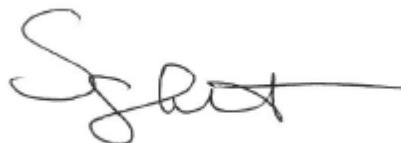

In conclusion: The scraper can be used quite safely for its intended use such as general scraping, cleaning of baking trays, etc, including direct contact with food.

Confirmation of Certificate of Conformance

This certificate was prepared on behalf of Klipspringer Ltd and the information included is to the best of our knowledge correct at the time of writing. Klipspringer offers the information within this document as a guide only, they do not represent any guarantee of the prescribed products in the sense of the legal guarantee regulations. It is the responsibility of the end user to ensure the items purchased are suitable for the intended application.
